NEC3 & 4 ENGINEERING & CONSTRUCTION CONTRACT (AND SUBCONTRACT) ADMINISTRATION AND ASSESSMENT OF COMPENSATION EVENTS SEMINAR/WORKSHOP

Overview

Notification and assessment of the time effect and cost of compensation events, for the purpose of a quotation or the Project Managers assessment, is a fundamental part of the NEC ECC and ECSC.

This one-day course (seminar and workshop) is presented by two experienced Directors of DGA who are frequently called to provide expert evidence with regards to delay, quantum or contractual advice on the NEC. The course considers the compensation events, notifications and quotations, demonstrating the change to the Prices, Key Dates and Completion date through to implementation of a compensation event, with reference to a mock/theoretical project, events, programme and Defined Cost.

UNDERSTANDING AND USING THE JCT STANDARD BUILDING CONTRACT AND DESIGN & BUILD CONTRACT 2016

Overview

The JCT Standard Building Contract and Design and Build Contract remain the two most frequently used contracts in the United Kingdom. In 2016, a number of changes to the previous editions of the JCT were published by the Joint Contracts Tribunal.

This one-day seminar is presented by experienced and dual qualified professionals. It will provide the delegates with a comprehensive understanding of the key parts of both contracts in order that they can understand each party's liability and obligations. Reference is made to case law as part of explaining some of the provisions of the previous editions (and how this applies to the current editions) and operation of the contract.
